**Class of 2025**

**Application Deadline: October 30th, 2020**

*This application packet must be submitted with certain  
attached documents to complete your application.*

Congress of the United States  
House of Representatives  
Washington, DC 20515

<http://moulton.house.gov>

Dear Applicant,

Congratulations on your decision to apply to one of our nation's Service Academies. You have taken the first step in pursuing an exciting, rewarding, and challenging career serving in our Armed Forces. The United States Service Academies offer the best education in the world and the opportunity to serve as a commissioned officer in the United States Armed Forces upon graduation.

As your representative, it is my honor to be a small part of one of our country's oldest traditions by nominating our nation's most accomplished and motivated young people for acceptance into a Service Academy. To complete your application to the U.S. Military Academy, the U.S. Naval Academy, the U.S. Air Force Academy, and the U.S. Merchant Marine Academy you must not only meet the admissions requirements for the Academy, you must also receive a Congressional nomination.

I have chosen a Service Academy Selection Board of distinguished and experienced members of our community who will review your application, conduct your interview, and present their recommendations for nomination. This process is extremely competitive with a limited number of nominations available, so I encourage you to apply through other nominating authorities as well, and to consider the U.S. Coast Guard Academy, Reserve Officer Training Corps (ROTC) programs, and Officer Training Schools, which do not require nominations.

My office will start accepting completed applications on August 3rd, 2020 and we must receive all information no later than October 30th, 2020 for those interested in entering one of the Service Academies in the summer of 2020.

No matter how you decide to serve our country, it is an honorable and selfless choice. I am proud to represent you in Congress.

Sincerely,

A handwritten signature in black ink, appearing to read 'Seth Moulton', written in a cursive style.

### Application for Nomination to a U.S. Service Academy

#### ADDITIONAL INSTRUCTIONS AND GENERAL INFORMATION

### 1. REQUIREMENTS

- a. **Eligibility.** Applicant must meet the following criteria to be considered for a Service Academy nomination.
  - i. Applicant must be a legal resident of the Sixth Congressional District (legal residence of custodial parent normally determines constituency should parents be divorced). To confirm residency, please visit [www.house.gov](http://www.house.gov).
  - ii. Citizen of the United States.
  - iii. Appropriate Age
  - iv. Unmarried and have no legal requirement to provide support to a dependent.
- b. **Application Form.** The enclosed application forms must be completed and returned by the official deadline of October 30<sup>th</sup>, 2020. Formal candidacy is established in Representative Moulton's office upon receipt of the completed application packet.
- c. **Personal Resume.**
- d. **Recommendation Letters.** Three recommendation letters must be submitted.
- e. **Transcript.** An official transcript of the applicant's high school record and if possible class rank, which must be submitted. This transcript must show the applicant's final junior year grades. If the applicant applies before this information is available, it is the applicant's responsibility to request their guidance counselor send an up to date transcript and to keep records current.
- f. **Standardized Test Scores.** The SAT and ACT are required entrance exams recognized by the Service Academies for applicants admitted to one of the Service Academies. Applicants are responsible for registration of tests and sending their scores to the academy/academies. This year, **Representative Moulton's office** will not require submissions of SAT and ACT as part of our scoring rubric due to the COVID-19 outbreak limiting some applicants' ability to retrieve test results before the deadline. This exception does not change the application requirements of the service academies.
- g. **Qualifying Medical Exam.** The individual academies will recommend the scheduling of medical examinations to the Department of Defense Medical Review Board (DODMRB) after receipt of the pre-applicant questionnaire, which is used to open a pre-admission file at an academy. There is no cost to the applicant for this examination. Be sure to mail the appropriate yellow, white, blue or green cards as soon as possible to the appropriate academy/academies. The results of this exam are not needed for the application file.
- h. **Interview.** Each applicant who completes a written application will be interviewed by Representative Moulton's Service Academy Selection Board. This is the final step in the nominating process. The board is comprised of members of the public (from the Sixth Congressional District), who are appointed by Representative Moulton to review all of the applications, interview the applicants, and make recommendations to Representative Moulton on nominations. The applicant **MUST** receive a nomination from either Representative Moulton or one of the other eligible nominating authorities to be considered for acceptance to a Service Academy. Once the applicant's file is complete, they will receive further information on the scheduling of the interview.

## 2. BASIS FOR SELECTION

- a. Selections are made competitively on the basis of a combination of *academic factors, leadership potential, extra-curricular activities, physical fitness, and letters of recommendation*.
  - i. **Academic Factors.** Our office will consider academic factors like high school transcripts, class ranks, and grade point average. These will not be the sole basis for which we consider an applicant for nomination. ACT and SAT score reporting is optional for our nomination process this year.
  - ii. **Extra-Curricular Activities.** The most competitive applicants will be active in their communities whether at their schools, through volunteer work, or other activities. In particular, Representative Moulton's Service Academy Selection Board looks for highly motivated students who demonstrate leadership ability in their own community.
  - iii. **Motivation.** One of the most important considerations in the selection process is motivation – the applicant's desire to attend an academy. It is also the most difficult to measure. To an extent, motivation can be judged by a applicant's diligence in completing their file, which is one reason those with incomplete files are not considered for nomination. In addition, applicants are required to write an essay on the reasons for wanting to attend an academy. **The essay can be an extremely helpful tool in the review of the application.**
  - iv. **Leadership and Physical Fitness.** Leadership potential and physical fitness are judged from the information provided on the application form. This information should be kept up to date. Unlike civilian colleges, Service Academies place strong emphasis on physical training. In addition, the academies, like civilian colleges and universities, place a high premium on leadership and extra-curricular activities. Therefore, consideration must be given to each applicant's proven ability in these areas. It is **strongly recommended** that the letters of recommendation and resume highlight any of the applicant's leadership skills.

## 3. OTHER COMMISSIONING OPTIONS

- a. **U.S. Coast Guard Academy.** The U.S. Coast Guard Academy is proud to educate leaders of a multi-mission, maritime military force. As a commissioned officer in the Coast Guard, you will be leading a team of men and women who are continually called on to serve their community, country, and fellow citizens.

While the United States Coast Guard is notable as the oldest life-saving service in the world, its roles include more than just Maritime Safety and Security. The Coast Guard is also called upon for critical service in protection of natural resources, maritime mobility (management of maritime traffic, commerce and navigation), and national defense. The U.S. Coast Guard Academy campus is located on the Thames River in New London, Connecticut; the Academy provides a four-year Bachelor of Science degree program with a full scholarship for each individual. Each year, approximately 200 ensigns (or junior officers) are commissioned during graduation exercises in May.

Following graduation, newly commissioned ensigns report for duty aboard cutters and at sector offices in ports nationwide. Graduates of the academy are obligated to serve five years in the U.S. Coast Guard, though many choose to stay and make a rewarding, life-long career of their maritime military service.

The U.S. Coast Guard Academy does not require a nomination from either Representative Moulton or one of the other eligible nominating authorities to be considered for acceptance to the academy.

For additional information please visit the following website: <https://www.uscga.edu/>

- b. **Reserve Officer Training Corps (ROTC).** A great alternative to academy attendance is one of the Reserve Officer Training Corps (ROTC) programs offered by the three military services. ROTC is a four year elective program that is offered on many college campuses. The ROTC program also offers full or partial tuition scholarships to qualified students. Completion of a Reserve Officer Training program will result in a commission as a Second Lieutenant or Ensign along with students who graduate from a military academy at the same time.

- c. **Officer Training and Candidate Schools.** While duration and type of training varies among the Services, each teaches military subjects, leadership skills and physical training. The goal is to prepare recruits for the challenges of officer life, from managing others to understanding military culture and law. To learn more about specific programs and classes, visit the service-specific websites listed in the table below.
